Purpose of Inspection:

The purpose of the inspection was to determine if site conditions would allow the Division to release the bond and retire the site. The area had 6-8 inches of snow on the ground. The amount of disturbance was small and the area appeared to be reclaimed. However, due to the amount of snow on the ground, the Division was unable to conduct a adequate bond release inspection. Due to the amount of snow on the ground pictures of the site were not included in the inspection report.

Conclusions/Recommendations:

The Division should conduct an additional inspection when there is no snow on the ground.

Inspector's Signature

A handwritten signature in green ink, appearing to read "Wayne A. Williams", is written over a horizontal line.
